

Wedding Information Sheet 8

Flower Arrangements and Other Decorations

- ⊙ The arrangements for flowers at your Wedding must to be discussed with St Mary's 'in house' Florist (see the Contact Information sheet)
- ⊙ Once the number and size of the arrangements required have been discussed, the appropriate fee can be calculated.
- ⊙ As well as the number of arrangement, care will of course be given to matching colours where possible. It must be noted, however, that when there is more than one service on a given day it will be necessary to consult all parties involved!
- ⊙ Flower arrangements can be removed from the Church after the service if you wish, with two provisos:
 1. The flower arrangement at the front of the Church is to remain for services on the following Sunday
 2. If you wish to remove any other arrangements, it should be done immediately after the service.

Access to the building cannot be guaranteed at any other time, and is always dependent upon the availability of key-holders and other events taking place at St Mary's
- ⊙ If you wish to use decorations (ribbons etc), please discuss this with the florist and the minister conducting your service. All decorations will need to be removed once the service is over.
